

So, why are we called "Lifoam" Industries?

Experience

Over 50 years ago, the LIFOAM Industries, LLC created the world's first EPS foam ice chest, and with it, an entire new industry. Through the years, LIFOAM has expanded its expertise in foam molding and fabricating services to suit a wide range of applications.

Today, LIFOAM is not only the country's premier manufacturer of EPS retail products, but is also a leader in custom molding and design engineering services from 7 nationwide manufacturing facilities.

Whether your need is protective packaging, temperature-sensitive shipping, refrigerants, or custom foam components, LIFOAM's engineers can design an efficient, cost-effective solution to fit your business plan. Our design engineering services can even include custom imprinting and screen printing!

Call us toll-free at 800-638-1471, or contact the LIFOAM facility nearest you for more details or to schedule a consultation.

LIFOAM... Helping to Protect the Life of Your Business.

Innovation

Over the years, LIFOAM has continued to expand, not only its foam business, but its custom molding, ProPak shippers and refrigerants. We've invented and patented numerous product designs and purchased existing businesses, incorporating their expertise into our own. Through this unusual evolution we have emerged a multi-divisional company with unique array of products lines, including:

- Foam gliders and pool toys.
 - Pool toys.
 - A full compliment of temperature-sensitive accessories, including ice substitutes.
 - ProPak shippers.
 - Fabricating and more.
-

Service

Fast, personal service is a must for today's businesses. That is why we currently manufacture and ship our foam products from 7 factories around the country: Baltimore, Maryland (headquarters); Chicago, Illinois; Los Angeles, California; Peabody, MA; St. Petersburg, Florida; Waxahachie, Texas; and Rome, Georgia. The strategic geographic location of these plants makes us the only manufacturer in the industry that can adequately service large national accounts as well as smaller, regional customers - economically and personally. It is a unique history that has brought LIFOAM Industries from its promising beginnings to the company we take pride in today. And it is because of this combination of Experience, Innovation, and Service that we remain an industry leader and trusted vendor to our valued customers.
